MEMORANDUM FOR: Executive Assistant to the DCI
 SUBJECT: Unanswered Correspondence from DoD

1. The only deficiency with which I am associated relates to paragraph 1e of Dr. Fubini's bill of particulars.

2. This communication took the form of a blind memorandum describing the corporation which Fubini left with the DCI (or sent to the DCI) with a handwritten note saying "for your information," "per our conversation," or something like that. The Director sent it (or gave it) to me for comment. I solicited and received comments from [redacted] [redacted] which I sent back to the DCI, I think shortly before his departure for [redacted] in December. The Director gave it back to me with the request that I discuss it with Fubini just about the time of Fubini's departure for his own trip to the Far East early in January. In the meantime, I solicited further comments from [redacted]

3. The FIAB memorandum of 7 February includes (recommendation 4) a proposal to create a similar corporation and comments on this proposal are being formulated jointly by NSA, CIA and DoD. In the meantime, I discussed it with Fubini on 21 February. Actually Fubini knows perfectly well that the matter is under consideration and that it is not the kind of a problem which is susceptible to solution by correspondence.
